Casiotone

Making Music Fun. Anytime, Anywhere.

In 1980 Casio made music creation available to everyone, everywhere with the very first Casiotone portable keyboard. The CT-201 was the first electronic keyboard with full-size keys that anyone could afford. It launched a legacy of giving musicians of any age, budget, or skill level the innovations that help them sound their best.

Now, nearly 40 years later, Casio proudly presents the next generation of Casiotone keyboards. Casiotone is the perfect first step, the perfect gift, and the perfect way to have fun making music.

COMPACT & PORTABLE

The ultra-compact **CT-S200**, **CT-S300** and **LK-S250** let you make music wherever and whenever you want. Just pop in six AA batteries, grab the built-in carrying handle and take your inspiration to go.*

TONES & RHYTHMS

Explore a variety of great sounding Tones and accompaniment Rhythms with an easy-to-read LCD display and simple controls. Press the "My Setup" button to quickly get to your favorite Tone and Rhythm.

DANCE MUSIC MODE

Dance Music Mode lets you easily create and remix EDM tracks. Select a style, and use the keys to trigger drum loops, basslines, synth parts, effects, transitions and more.

BUILT-IN SPEAKERS

Use the built-in speakers to share with friends, or plug in headphones for quiet play at any time. The 1/8" audio input lets you play along with music from your favorite device.

TOUCH RESPONSIVE KEYS

The **CT-S300** adds a pitch bend wheel and touch responsive keys that respond naturally to your playing dynamics.

LIGHTED KEYS

The **LK-S250** features lighted touch responsive keys, making learning your favorite songs easier than ever. With plenty of built-in songs and a voice-guided Step-Up Lesson system, you'll be sounding great in no time. There's also a mic input so you can sing along.

EXPRESS YOURSELF

Express yourself with a Casiotone **CT-S200** in either black, white or red.

CHORDANA PLAY APP

Connect to the free Chordana Play iOS/Android app and take your music further, learning how to play your favorite songs from downloaded MIDI files. The class-compliant USB port connects to any Mac/PC/iOS/Android device with no drivers needed.
