

# Privia

## PX-770

### AiR – Acoustic and Intelligent Resonator

The AiR Sound Source delivers incredible detail and realism with advanced damper simulation. As the sustain pedal is used, you can hear the dampers lift off the strings along with the resonance across the soundboard, creating an immersive grand piano experience.

### 4 Layer Stereo Piano Sounds

The grand piano sounds in Privia pianos deliver an unprecedented level of realism and expression. Four dynamic layers of stereo piano samples and Casio's proprietary technology result in a grand piano sound with seamless transitions and a superior dynamic range.

### 88 Note, Scale-Action Keyboard

The tri-sensor, scaled hammer-action keyboards in Privia pianos feature ebony and ivory-feel keys, and provide both remarkable feel and superior dynamic expression.

### Concert Play

Concert play provides 10 audio recordings of a full symphony orchestra. You can practice any of the 10 classical pieces at different tempos, and choose whether you'd like to hear the piano part, or play it yourself. Enjoy the sound of playing along with a full orchestra in the comfort of your own home.

## FEATURES

- 128 Notes Polyphony
- 19 Enhanced Tones
- 60 Built-In Songs
- AiR Sound Source
- Hammer Response and Damper Resonance Simulation
- Concert Play
- 2 Track / 1 Song Recorder
- Reverb and Chorus Effects
- Split and Layer
- Duet Mode
- 2 Speaker / 8W + 8W Amplifier
- Available in Black, Oak or White Finish

**3 YEAR LIMITED WARRANTY (with online registration)**
